WORK EXPERIENCE

ICB Labs - FZCO

SEPT 2025 - APR 2026

Graphic Designer - DUBAI, UAE

- Collaborated with internal teams to translate campaign goals and brand direction into high-quality visual content for digital and corporate use.
- Designed engaging social media creatives tailored for different platforms, helping strengthen online visibility and maintain a consistent brand presence.
- Supported fast-paced content production by combining graphic design skills with AI-assisted tools to speed up concept development and creative execution.

Ran Online Game

OCT 2020 - NOV 2024

Software / Game Developer, Graphic Designer
& Technical Support - Self-Employed

- Modified and maintained Ran Online source code in Visual Studio 2010 to implement updates and fix bugs.
- Managed SQL Server database updates and queries for player data, custom features, and live operations.
- Configured VPS/dedicated servers, launcher access, DNS, and game services for uptime and connectivity.
- Troubleshoot source-level and live-environment issues involving client/server behavior, stability, and performance.

Big Cave Studios

DEC 2024 - AUG 2025

Web & Content Developer - DUBAI, UAE

- Created website, blog, and social content aligned with brand goals, audience needs, and campaign objectives.
- Optimized digital content structure for readability, search visibility, engagement, and conversion performance.
- Supported web content updates and visual communication tasks using writing, design, and front-end understanding.
